

Driving Directions from Harris Ranch Inn & Restaurant to Tripoli Central California Launch Site (LDRS Location)

24505 W Dorris Ave, Coalinga, CA 93210 - 559-935-0717

1. Head out of the North side of the parking lot and turn right onto Highway CA-198 East for 1.5 miles
2. Turn left onto South El Dorado Ave and drive 6.0 miles to CA-145.
3. Turn right onto CA-145 North and follow the road for 8.6 miles. You will approach a 4-way stop sign and now you are at the "5 Points" intersection.
4. Turn left to stay on CA-145 N and drive 7.1 miles to Kamm Ave.
5. Turn right onto W Kamm Ave and drive approximately 1.5 miles to N. Del Norte passing Railroad tracks after you make your right. Go 1.25 miles.
6. Start slowing down 1.25 miles after your right hand turn onto Kamm from CA-145 and you approach N. Del Norte (which is a dirt road and has a small sign "N. Del Norte").
7. You will see a barricade with a painted "Launch Site" sign at N. Del Norte. You're close!
8. Turn right onto N. Del Norte road. It will have gravel, a slough on the right side for irrigation and a house on the right hand side approximately 1/4 mile up the road with what looks like a 4-way dirt road intersection. Continue forward and make sure not to drive too far to the right as sometimes the slough overflows and deep river-silt mud is present. Caution: this is a working farm and you could encounter a tractor at this point. Yield right of way to all farm vehicles. You should see the launch site at this point and parked vehicles in the distance.
9. Continue on N. Del Norte road until you see Railroad tracks and a Stop sign. Make sure to STOP before passing over the railroad tracks and observe road conditions.
10. Launch Site will be on the left! Turn left at the Railroad tracks and continue slowly down the access road to the parking area. Don't drive over 10mph on the dirt access roads! Avoid Muddy Areas!

Note: There are two Del Norte dirt access roads (N/S) for the fields, if you don't drive up Kamm after your right hand turn off of CA-145 at least 1 and a quarter miles and start slowing down, you will end up at S. Del Norte and see the launch site in the distance, but have no way to gain access. N. Del Norte road is up approximately 1 mile from S. Del Norte on W. Kamm Ave
